

CONNECT CARE

Provider Portal: Link Referring Provider Benefits

What does this mean for me?

With Connect Care Link:

I will be able to see what happens when my patients are admitted, seen or served by AHS.

I will be able to view, contribute to, and align with my patient's integrated plans of care.

I will be able to find, locate and consult with my patient's AHS multidisciplinary care team.

I will be able to schedule and track my referrals, appointments, procedures and orders.

I will be able to review my patient's full chart, including goals, alerts, results, notes, letters, and images; and submit additions to fill information gaps.

I will receive alerts about my patients' admissions, care transitions and discharges from AHS facilities and programs.

I will be able to securely message patients, family and providers in the circle of care, and arrange eConferences.

Our Executive Sponsors are Dr. Francois Belanger, Sean Chilton and Deb Rhodes.
